

The Park Hyatt St. Kitts Is Now Open

One Mile at a Time by lucky | Nov, 2 2017

One of the most anticipated Hyatt hotel openings has been the new Park Hyatt St. Kitts. Park Hyatt is Hyatt's most luxurious brand, and this will be the first Park Hyatt property in the Caribbean. I've been eying this hotel for quite a while, though unfortunately the opening has been pushed back several times due to major construction delays. There's good news on this front -- the Park Hyatt St. Kitts has opened as of today. The new Park Hyatt St. Kitts has 126 rooms, and is located within Christophe Harbour. It's also interesting to note that the hotel has a Miraval Spa. As some of you may remember, Hyatt recently announced a partnership with Miraval for their property in Arizona. I'm not sure if this spa choice is a coincidence, or if it's part of increased cooperation between Hyatt and Miraval.
